

Advincula
DELINEATOR™
with Koh-Efficient® Technology

Advanced Uterine Manipulator
Exceptional Strength and Performance
In an Easy-to-Use Disposable

Unprecedented Ease of Use, Safety And Strength for TLH, LSH and LAVH – In an Efficient Disposable Design

Centimeter markings appear on both the distal and proximal ends.

Best-in-class pneumo occluder balloon is built into the Koh-Efficient.

Position lock simplifies the insertion/locking process and displays uterine depth.

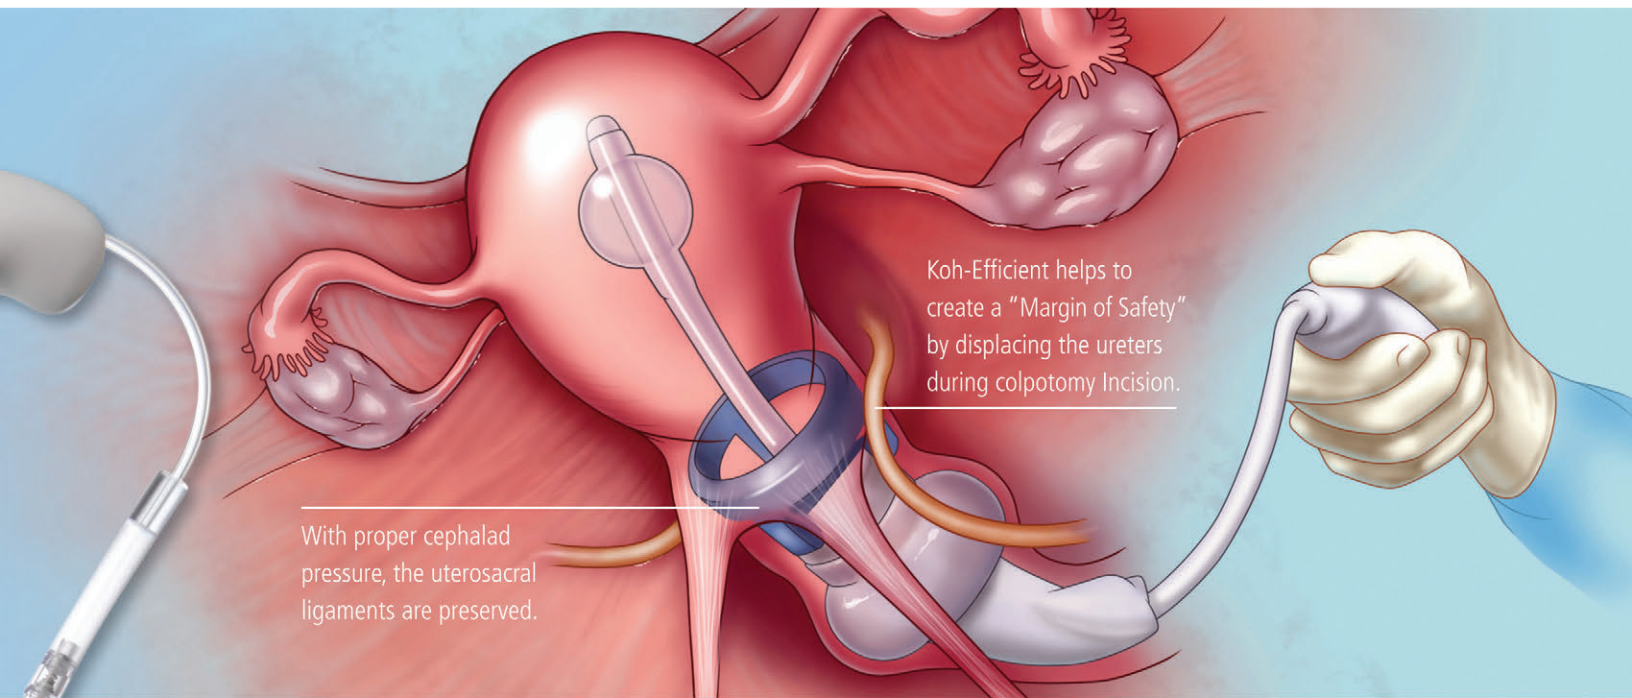

Ergonomic handle fits comfortably in your hand through the entire procedure.

Tempered shaft provides exceptional strength.

Uterine balloon improves control.

Rigid Koh colpotomy cup clearly delineates the vaginal fornices with proper cephalad pressure.

Koh-Efficient is integrated into the Delineator.

Superior Design Simplifies Prep and Speed of Insertion

The Advincola Delineator™ is designed for ease of use, safety and maximum efficiency.

- Sound the uterus and use the Cervical Sizer to determine the appropriate Koh Cup size.
- Remove the fully-assembled device from the sterile packaging.
- Place manipulator through cervix and inflate uterine balloon.
- Slide the Koh-Efficient® to the sounded number marked on the handle.
- Press the position lock to secure the cup, and begin the procedure.

Integrated, unified design, simplifies setup and insertion.

Koh-Efficient Helps Distance Critical Anatomy to Create a "Margin of Safety"

With the application of proper cephalad pressure, the Koh-Efficient helps to create a "Margin of Safety" by preserving the uterosacral ligaments and displacing the ureters during colpotomy incision.

Available in Three Cup Sizes

The Advincula Delineator is available in three cup sizes to accommodate varied anatomy, and is constructed with Ultem™ resin or stainless steel cups for electrocautery, harmonic scalpel and laser procedures.
